FAX TO: ACES MEMBERS (31 May 2001)

Dear Sir

SS CP 2: 2000 CODE OF PRACTICE FOR INSTALLATION, OPERATION AND MAINTENANCE OF ELECTRIC PASSENGER AND GOODS LIFTS

The Singapore Productivity and Standards Board has revised SS CP 2: 1979. The revised SS CP 2: 2000 applies to the design, construction, installation, testing, inspection, operation and maintenance of permanently installed new electric lifts for the transportation of people and goods.

2 SS CP 2 is a reference standard in both the Building Control Regulations and Code of Practice for Fire Precautions in Buildings 1997. The Building and Construction Authority (BCA) and Fire Safety Bureau (FSB) have decided to adopt the revised Code as a reference standard for projects with project reference numbers lodged with BCA from 1 Oct 2001. Where there is no lodgment of project reference number, the revised Code shall apply to building plans submitted for approval from 1 Oct 2001.

3 If any on-going project is affected by the cut-over date, the Qualified Person may apply to BCA and FSB for special consideration to continue using SS CP 2: 1979. Notwithstanding the above mentioned cut-over date, owners and Qualified Persons are encouraged to adopt the revised Code for their current projects.

4 Please convey the contents of this circular to your members. Thank you.

Yours faithfully

DING HOCK HUI
SENIOR MANAGER
BUILDING PLAN & MANAGEMENT DIVISION
for COMMISSIONER OF BUILDING CONTROL
