STANDARD CONNECTION CHARGES
FOR THE PROVISION OF LOW TENSION ELECTRICITY SUPPLY

The Board introduced the standard connection charge system for low tension supply in 1987. In the existing schedule of standard connection charges, a customer requiring a single phase supply beyond 15 kVA has to take a 3-phase supply. The present schedule also provides only for single phase service connection for park lighting.

2 In order to meet the changing needs of our customers, the Board will accept with immediate effect applications for single phase supply service connection of a capacity up to 23 kVA (100 amperes) and 3-phase supply service connection for park lighting. The standard connection charge for single phase supply from 16 kVA to 23 kVA is $2800 and that for 3-phase supply from 16 kVA to 45 kVA for park lighting is $9,400.

3 The updated schedule of the standard connection charges is given in the Appendix for your convenience. For clarification, please contact engineers of the Marketing and Planning Section at telephone Nos 7313457/7313465/ 7313469/7313076.

CHOY HON TIM
DIRECTOR, ELECTRICITY DEPT

Appendix

SCHEDULE OF STANDARD CONNECTION CHARGES
FOR DEVELOPMENTS NOT REQUIRING A SUBSTATION

Capacity in kVA	Standard Connection Charge $
Up to 15 (existing premises)	1,600
Up to 15 (new premises)	1,900
16 - 23 (single phase)	2,800
16 - 45	5,300
46 - 75	8,800
76 - 140	16,700
141 - 180	22,000
181 - 230	28,700
231 - 280	34,400
Traffic light/Park lighting	
Up to 15 (single phase)	7,200
16 - 45	9,400

Note : The standard connection charges are subject to revision from time to time and are not applicable for supply on off-shore islands.
