APPLICATIONS FOR ELECTRICITY SUPPLY ON CORPORATISATION

PUB will be corporatised on 1st Oct 1995. Applications for electricity supply shall thereafter be submitted to Power Supply Pte Ltd (PSPL), a subsidiary of Singapore Power Pte Ltd.

2 PSPL will process the applications, offer terms and conditions, issue quotations and collect payments for service connections. It will also clear single-line drawings and inspect the electrical installations before supply turn-on. Where applicable, installation of cables and substation equipment will be carried out by another subsidiary, PowerGrid Pte Ltd (Grid).

3 Procedures and activities remain mostly the same as at present as you will be dealing with successor companies. A list of the various sections of PSPL and Grid and their roles, is attached for your easy reference. As usual, please arrange for pre-application consultation early at planning stage of a proposed development to ensure that substations, if any, are included in the submission to Development Control Division, URA.

4 Samples of revised forms CS/1, CS/2 and CS/3 are also attached for your information. They will be available on corporatisation at PSPL's Customer Services Centre, Upper First Storey, 111 Somerset Road. Existing forms will continue to be accepted up to one month after. For clarifications, please contact Mr Cheng See Tau (tel 7313071) or Mr Manohar (tel 7313444).

PHANG CHEE KIONG
AG DIRECTOR
