Circular No: RD/E01/2003
Date of issue: 16 Jul 2003

To: All Licensed Electrical Workers

Dear Sirs

CERTIFICATE OF COMPLIANCE UNDER THE ELECTRICITY (ELECTRICAL INSTALLATIONS) REGULATIONS 2002

Under the Electricity (Electrical Installations) Regulations 2002, the licensed electrical worker (LEW) appointed by a consumer shall issue a Certificate of Compliance in respect of the consumer's electrical installation prior to the energisation of the supply line to the electrical installation. The form of the Certificate of Compliance was given in the Circular No. RD/E02/2002 dated 30 Dec 2002.

2 Feedback from the industry shows that for an electrical installation designed and installed by two different LEWs, both the LEWs would need to certify compliance for the electrical installation. Consequently, the form of the Certificate of Compliance has been modified accordingly. The revised form of the Certificate of Compliance is given in the Appendix.

3 The revised form of the Certificate of Compliance shall take effect from 1 Aug 2003 and henceforth supersede the form issued under Circular No: RD/E02/2002 dated 30 Dec 2002.

4 If you need clarification, please email to EMA_RD_ELISE@ema.gov.sg.

Yours faithfully

DY CHIEF EXECUTIVE
REGULATION DIVISION

Updated : 30/06/2004

CERTIFICATE OF COMPLIANCE

Particulars of Electrical Installation

Name of Consumer: _____

Address of Installation: _____

_____

Electrical Installation Licence No. _____ MSS Account No. _____

Approved load & Supply Voltage: _____ kW _____ Volts

Generator(s) Installed: ☐ Operated in parallel with PowerGrid's network.
No. of generator: _____ Rating: _____ kVA
☐ Standby generator.
No. of generator: _____ Rating: _____ kVA
☐ Not applicable

Electrical Installation Design Certification

I certify that the design of the above-mentioned electrical installation complies with the requirements of the Electricity (Electrical Installations) Regulations 2002 and the relevant Singapore Standard Code of Practice. With the certification of compliance by the LEW responsible for the installation work as shown below, I hereby request for the energisation of the supply line to the said electrical installation on _____ (date).

_____	_____	_____
Name & Signature of LEW responsible for design of electrical installation*	**Licence No.**	**Date**

Electrical Installation Inspection Certification

I have supervised the work of the above-mentioned electrical installation and hereby certify that the electrical installation complies with the requirements of the Electricity (Electrical Installations) Regulations 2002 and the relevant Singapore Standard Code of Practice. I further certify that the technical requirements as stipulated by the person responsible for turning on the switchgear which controls the supply of electricity to the said electrical installation have been complied with.

_____	_____	_____
Name & Signature of LEW responsible for electrical installation work*	**Licence No.**	**Date**

* The same LEW may perform both design and installation work for the electrical installation.
