MEMORANDUM

To : All Engineering Staff

From : Andrew Loh

Subject : IEC 298
CIDB Catalogue 1997 (Vol 1 & 2)

.....

Please be informed that both the IEC 298 & CIDB Catalogue 1997 (Vol 1 & 2) are available for loan from our library.

A photocopy of the content pages are attached for your reference.

CONTENTS

VOLUME I

Foreword 5
Terms And Conditions Of Use 9
Introduction To The Construction Industry Development Board (CIDB) 11
Introduction To The CIDB-SIABC Design Support Centre 13
How To Use The Catalogue 15
How To Use CI/SfB 17
Flow Chart On How To Use CI/SfB 22
How To Find 23
Introduction To The Tables 24
Product/Service Grouping By CI/SfB Indexing System Available In This Catalogue 33
Complete CI/SfB Classification Index For Reference Only 36
Sectional List of Singapore Standards 66
Checklists For Development Plans Submissions 71
Checklist For Submission Of Building Plans By A Qualified Person 81
Checklist For Submission Of Building Structural Plans By A Professional Engineer 86
Checklist For Submission Of Building Structural Plans By An Accredited Checker 89

FOREWORD 7
PREFACE 7

SECTION ONE — GENERAL

Clause

1. Scope 9

SECTION TWO — SERVICE CONDITIONS

2. Normal and special service conditions 9

SECTION THREE — TERMS AND DEFINITIONS

3. Definitions 11

SECTION FOUR — RATED CHARACTERISTICS

4. Rating 19
4.1 Rated voltage 19
4.2 Rated insulation level 19
4.3 Rated frequency 19
4.4 Rated normal current and temperature rise 19
4.5 Rated short-time withstand current 21
4.6 Rated peak withstand current 21
4.7 Rated duration of short circuit 21
4.8 Rated supply voltage of closing and opening devices and auxiliary circuits 21
4.9 Rated supply frequency of operating devices and auxiliary circuits 21
4.10 Rated pressure of compressed gas supply for operation 21
4.101 Rated filling pressure (of gas-filled compartments) 21

SECTION FIVE — RULES FOR DESIGN AND CONSTRUCTION

5. Design and construction 21
5.1 Requirements for liquids in switchgear and controlgear 23
5.2 Requirements for gases in switchgear and controlgear 23
5.3 Earthing 23
5.4 Auxiliary equipment 25
5.5 Dependent power closing 25
5.6 Stored energy closing 25
5.7 Operation of releases 25
5.8 Low and high pressure interlocking devices 25
5.9 Nameplates 25
5.101 Degree of protection and internal fault 27
5.102 Enclosure 29
5.103 Partitions and shutters 33
5.104 Pressure relief of gas-filled compartments 35
5.105 Disconnectors and earthing switches 35
5.106 Interlocks 37
5.107 Provisions for dielectric tests on cables 39

SECTION SIX — RULES FOR TYPE TESTS

6. Type tests 39
6.1 Dielectric tests 41
6.2 Radio interference voltage (RIV) tests 47
6.3 Temperature-rise tests 47
6.4 Measurement of the resistance of the main circuit 47

Page

6.5 Short-time and peak withstand current tests . . . 47
6.101 Verification of making and breaking capacities . . . 49
6.102 Mechanical operation tests . . . 51
6.103 Verification of the degree of protection . . . 51
6.104 Pressure withstand test for gas-filled compartments . . . 51
6.105 Gas tightness tests of gas-filled compartments . . . 51
6.106 Measurement of leakage currents . . . 53
6.107 Weatherproofing test . . . 53
6.108 Arcing due to internal fault . . . 53

SECTION SEVEN — RULES FOR ROUTINE TESTS

7. Routine tests . . . 55
7.1 Power-frequency voltage tests on the main circuit . . . 55
7.2 Dielectric tests on auxiliary and control circuits . . . 55
7.3 Measurement of the resistance of the main circuit . . . 55
7.101 Partial discharge measurement . . . 57
7.102 Mechanical operation tests . . . 57
7.103 Pressure tests of gas-filled compartments . . . 57
7.104 Gas tightness tests of gas-filled compartments . . . 57
7.105 Tests of auxiliary electrical, pneumatic and hydraulic devices . . . 57
7.106 Verification of correct wiring . . . 57
7.107 Tests after erection on site . . . 57
7.108 Measurement of gas condition after filling on site . . . 59

SECTION EIGHT — GENERAL INFORMATION

8. Guide to the selection of switching devices for service . . . 59
9. Information to be given with enquiries, tenders and orders . . . 59
9.101 Information with enquiries and orders . . . 59
9.102 Information with tenders . . . 61
10. Rules for transport, storage, erection and maintenance . . . 63
10.1 Conditions during transport, storage and erection . . . 63
10.2 Erection (mounting) . . . 63
10.3 Maintenance . . . 63

FIGURE 1 — Standard test finger . . . 64

ANNEX AA — Internal fault . . . 67

ANNEX BB — Method of calculating the cross-sectional area of bare conductors with regard to thermal stresses due to currents of short duration . . . 81

ANNEX CC — Recommended method for the weatherproofing test for outdoor metal-enclosed switchgear and controlgear . . . 83

ANNEX DD — Guide for voltage tests after erection on site . . . 87

ANNEX EE — Rated insulation level for Series II . . . 89

ANNEX FF — Partial discharge measurement . . . 91

ANNEX GG — Gas tightness specifications and tests . . . 101
