

Vortdry

Wall-mounted hair dryer

Two models available: standard and with razor socket.
As well as their quietness and refined design, these new hair dryers ensure safe and comfortable use.
Wall-mounted, they are both compact and elegant: careful design of internal components ensures a consistent and uniform flow of hot air and very low noise levels.

Vortdry Plus

Wall-mounted hair dryer with razor socket

- Silent, robust and long-lasting.

Vortice hair dryers are quiet, resilient and anti-tamper. The robust outer structure is made of impact-resistant ABS resin, with UV protective treatment.

- Safe.

The air temperature is calibrated so as to guarantee the total safety and health of both skin and hair (complies with EN 60335-1-2-23 safety regulations). The appliances carry the CE mark and are approved by IMQ.

Design: F. Trabucco & Associati
