KONE People Flow Intelligence solutions

KONE People Flow Intelligence solutions

FOR SMOOTHER, SMARTER PEOPLE FLOW

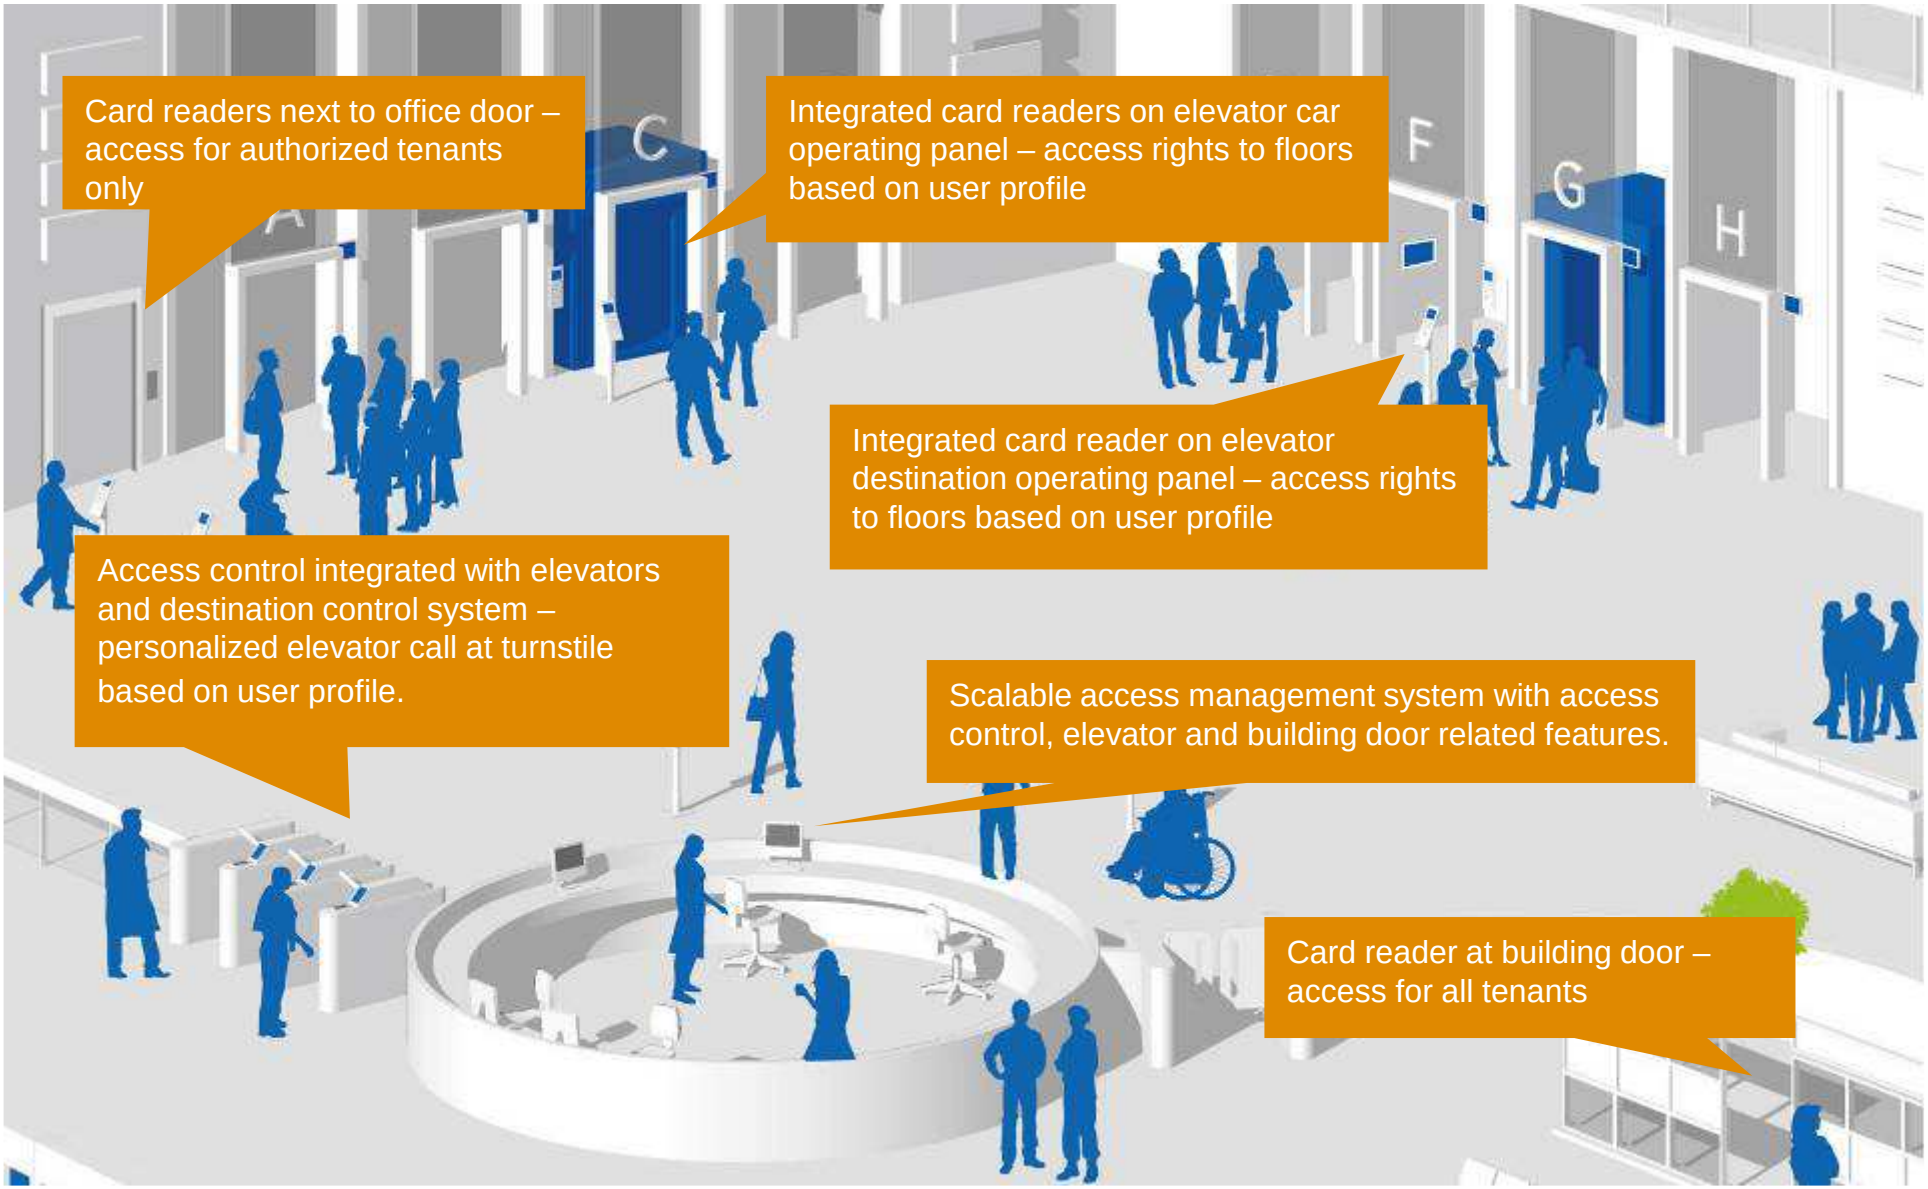

Access solutions

- **Improved People Flow and security** with integrated access and elevator solutions.
- **Easier planning, installation, and operation** – one system, one partner.
- **Possible to scale up and adapt** the system.

In addition to providing its own access solution, KONE can integrate any third-party access solution with its elevator system, offering complete freedom of choice.

KONE Access overview

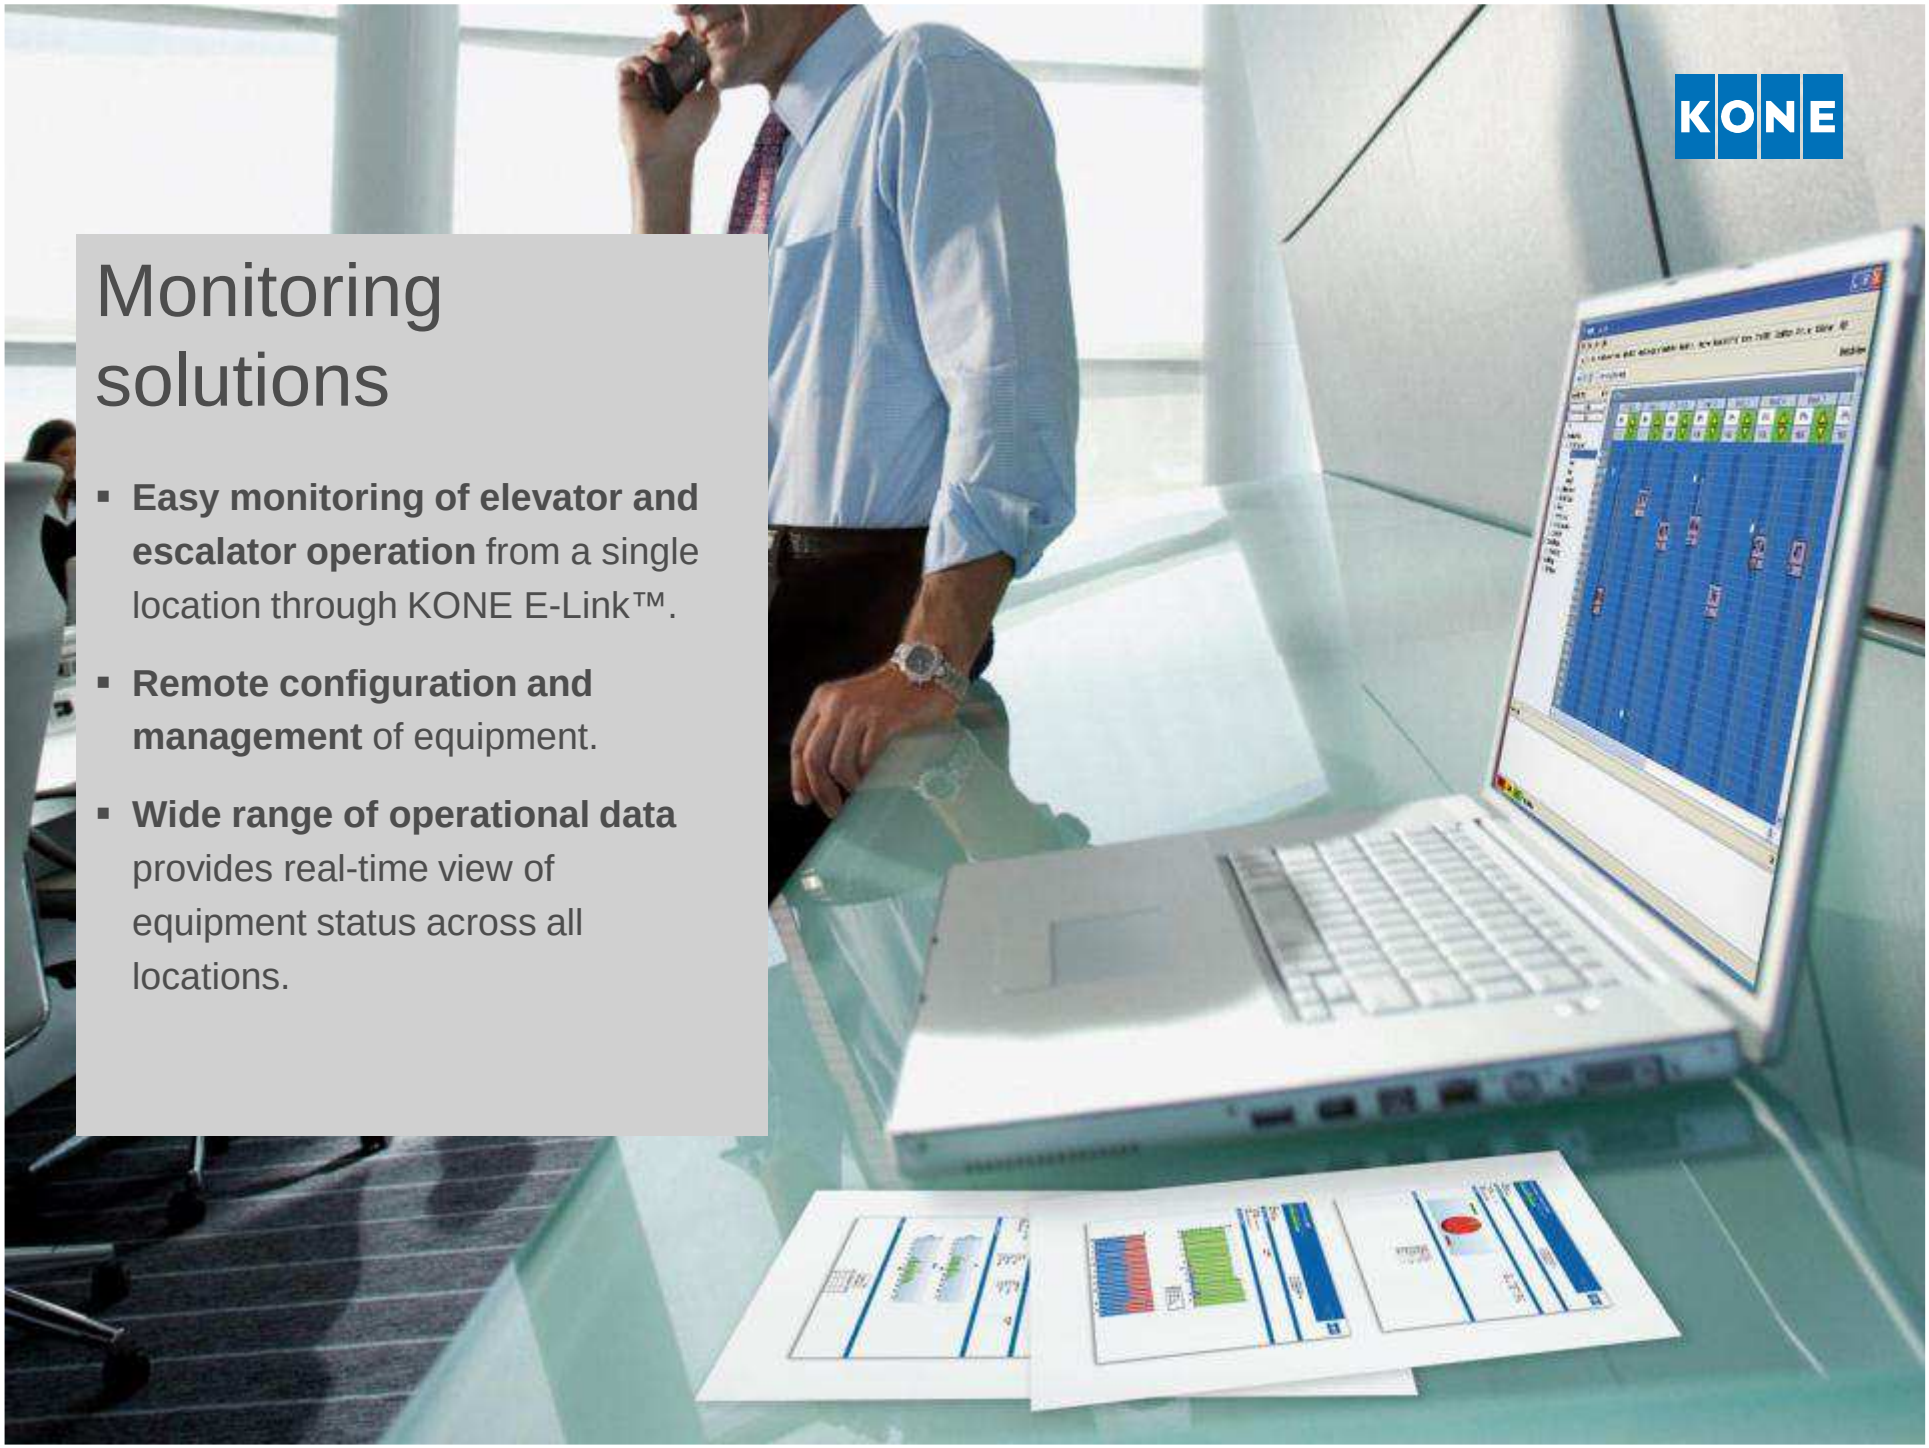

Destination solutions

- **Optimized elevator performance** with KONE Polaris™ destination control system.
- **The most advanced and flexible technology** on the market, combining the best performance and passenger convenience in one solution.
- **Attractive, user-friendly** operating panels, including new touchscreens and mobile applications for smartphones.

Information solutions

- **Information and advertisements** displayed in lobby and/or cars on KONE InfoScreen.
- **Rapid information channel** for facility managers and service providers to communicate with tenants and visitors.
- **Improved passenger guidance** during building changes or construction work.

Monitoring solutions

- **Easy monitoring of elevator and escalator operation** from a single location through KONE E-Link™.
- **Remote configuration and management** of equipment.
- **Wide range of operational data** provides real-time view of equipment status across all locations.
