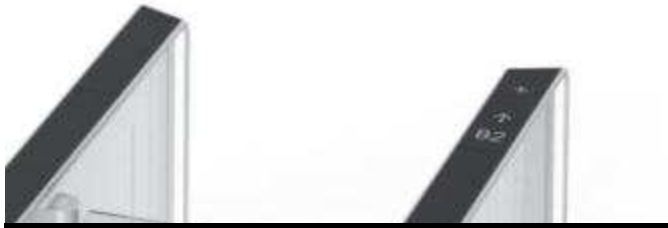
KONE Turnstile 100 Industrial Design

KONE Turnstile 100 industrial design



1.PREMIUM, CONSISTENT LOOK AND FEEL – Uncluttered visual design that matches KONE elevator signalization and access control readers

2.INTUITIVE TO USE – Shape provides visual cues for correct walking route, while LCD displays give clear directions

3.FLEXIBLE SOLUTION – Adjustable gate direction and traffic-light visibility, possibility to integrate any brand of access card reader, doors available in two heights

4.DURABLE AND HYGIENIC – The glass and steel panels are resistant to wear and tear, vandal-proof and easy to clean

5.SMART LIGHTING SOLUTION – Energy-efficient LED strips provides sufficient walkway lighting and give a premium look

We can deliver the whole lobby: elevators, escalators, doors and turnstiles – fully integrated by destination and access control
