Jason Choi
Mobile: +65 9641 5433
Email: sales_eap@tecs.com.sg

Electrimec Asia Pacific Pte Ltd, a wholly-owned subsidiary of Terasaki for the purpose of trading and distribution of Capacitors, Harmonics Filters, Variable Speed Drives, CAM switches, isolators, marine fuse link & holder and magnetic contactor

| | |
|---|---|
| **Line of business** | • **RTR Power Capacitors**<br>• **Enerdoor Harmonic Filters**<br>• **Gefran Variable Speed Drives**<br>• **Salzer Rotary Cam switches & disconnect switches**<br>• **Telergon Switch disconnectors**<br>• **Mersen Ferraz Shawmut Marine Fuse Link & Holder**<br>• **Terasaki Magnetic Contactor & Thermal Overload Relay** |
| **Coverage** | Singapore, Malaysia, Philippines, Myanmar, Pakistan, Indonesia, Bangladesh, Vietnam, China |

# Terasaki Magnetic Contactor & Thermal Overload Relay

- Compact size & Easy connection
- Improved Arc Protection from sealed structure
- Upgrade Rated Insulation voltage
  (690V->1000V over 40AF)
- Upgrade Impulse withstand voltage
  (6kV->8kV over 40AF)
- Upgrade Low current reliability at Low voltage
  (DC24V 10mA-> DC17V 5mA )
- Direct MMS Mounting (~40AF)

TERASAKI
Innovators in Protection Technology

# Sälzer Disconnect Switch & Cam Switch (Germany)

- Salzer switch available from 10A to 315A
- Used as ON-OFF switches, Changeover switches, Multi-step switches, Main switches, Emergency – OFF switches, Maintenance switches, Safety switches, Distribution switches and Motor switches.
- Four hole mounting, Single hole mounting, Snap-on mounting
- Panel mounting, Base mounting or Enclosed switches
- New development in disconnect switches for the DC sector

# Mersen- Ferraz Shawmut Marine Fuse Link & Fuse Holder (France)

- Fuse Link 10x38 gG type 500VAC (2A to 32A) , 120kA breaking capacity
- Fuse Link 14x51 gG type 500VAC (32A to 50A),120kA breaking capacity
- Fuse Link 22x58 gG type 690VAC (63A to 80A) , 500VAC (100A), 120kA breaking capacity
- Fuse holder 10x38, 14x51, 22x58  690VAC
- Comply to Marine Class Standards and Approvals such as BV, Lloyd's, DNV, gL and KR

CMS101

# Enerdoor Harmonic Filter (Italy)

EMI/RFI Filters & EMC Testing

ENERDOOR

- Enerdoor's Passive Harmonic filter attenuate the current distortion and is connected in series to the load (normally 6 pulses rectifier)
- Active Harmonic Filters connected in parallel to eliminate harmonic distortion due to nonlinear loads and improve the power factor.
- Compact Active Harmonic Filter available in rack mounting (30A & 50A), paralleled up to 10 modules
- EMI/RFI filters, Output Filters, Voltage Stabilizers and Surge Arresters are also available.

# Gefran ADV200 AC Drive (Italy)

- Gefran ADV200 is available from 0,75kW up to 355kW in “Stand Alone Configuration”
- In “Parallel Configuration” is available from 400kW up to 1MW
- Heavy and Light overload management Duty
- Heavy duty mode: Loads with “Constant Torque” Overload of 150% rated current, applications: Extruders - Mixers - Winders
- Light Duty mode: Loads with “Variable Torque” Overload of 110% rated current, applications: HVAC & Pumps

# Telergon Disconnect Switch(Spain)

- Switch disconnector OFF-ON with 3P / 3P+N from 63A to 6300A
- Changeover switch position 1/OFF/2 , 3P+N from 160A to 1600A
- New Handle design with unique features such as unlocking the door is possible in ON position
- Direct or External Handle

# RTR Power Capacitors (Spain)

- RTR Energy is a Spanish company specialized in power factor correction with a presence in over 60 countries.
- Three-phase capacitors with Newly patented Dual-winding (DW) design
- Triple safety by overpressure disconnection, internal fuse and DWCAP system internal windings displacement
- RTR Three phase Harmonic Filters and Automatic Power Factor Controller are available

RTR energía
